1. The following points were agreed on at the CIA Requirements Committee meeting of Thursday, 14 June 1951:

a. These ten countries will be the subject for the preparation of guide requirements by the appropriate offices:

USSR	North Korea
Austria	Yugoslavia
East Germany	Czechoslovakia
Iran	Hungary
Communist China	Poland

b. Using the general pattern for country approaches outlined in the O/CI paper distributed on 11 June, the following offices will submit to O/IC by 27 June their view of the guide requirements for their areas of responsibility: political, social, and military will be submitted by O/CI; economic by O/RR; scientific by O/SI. Following the general format set forth in the O/CI paper, each office will submit to O/IC 25 mimeographed copies of its product.

c. The category entitled "Intelligence and Security" will be eliminated on the ground that this is an exclusive responsibility of O/SO except for the element dealing with internal unrest and political insecurity which will be included by O/CI under the rubric "political."

d. When the materials noted in paragraph b. above have been assembled, O/IC will discuss, initially with O/O and O/SO, what further refinement is necessary in order to satisfy their administrative needs for priority determination.
